

nafis

PHP DEVELOPER & FRONTEND SPECIALIST

✉ nafis@gmail.com 📞 01305050614 📍 Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Results-driven Php Developer & Frontend Specialist with a solid foundation in Php, Html, Css, Python and modern software development practices. Proven track record in developing robust, scalable applications, optimizing database performance, and collaborating effectively in cross-functional agile teams. Eager to leverage strong analytical abilities and problem-solving skills to drive engineering excellence and business impact.

WORK EXPERIENCE

Frontend Engineer 2023 – Present
Innovate Softworks Dhaka, Bangladesh

- Developed and maintained key application modules using Php, Html, and modern design frameworks.
- Integrated authentication mechanisms and asynchronous data pipelines, ensuring seamless user experience and strict data validation.
- Participated in sprint planning, agile standups, and unit testing routines, consistently delivering features ahead of target release cycles.

Junior Associate / Developer Intern 2022 – 2023
TechnoVibe Labs Dhaka, Bangladesh

- Contributed to customer-facing web portals and bug fixing across frontend layouts and backend database queries.
- Authored comprehensive technical documentation, onboarding guides, and API integration specifications.

KEY PROJECTS

Enterprise Frontend Management Portal Php, Html, Css, Python

- Designed a full-stack platform featuring real-time analytics, role-based access control, and automated report generation.
- Implemented asynchronous queue processing and database indexing to handle concurrent data imports seamlessly.

Smart Php Job & Skill Matcher Php, Html, JavaScript, Bootstrap 4

- Built an automated recommendation pipeline calculating candidate-job compatibility score with keyword ranking algorithms.
- Delivered an interactive, responsive user dashboard with instant search, bookmarking, and live notification alerts.
